An aerial photograph of a tropical island with a large lagoon. The water is a vibrant turquoise color, transitioning to a deeper blue as it meets the dark ocean. A small, crescent-shaped island with a sandy beach and a cluster of buildings is visible in the lower center. The overall scene is serene and picturesque.

Welcome aboard!

Some tips

- ❑ Know which program you are in
- ❑ Check the requirements of your program
- ❑ Use the study plan
- ❑ When you are developing your study plan, select courses you are interested in; and then for each course:
 - Checking its availability; please note that some courses are NOT offered in every year
 - Checking its prerequisites (particularly for structure courses); it's students' responsibility to make sure they have met all the prerequisites.
 - Level 7 courses are generally most constrained ones.
- ❑ Research project is 1-year long; to help you perform better in your research project, you are encouraged to enrol in **CIVL7505: Research Methods for Civil Engineers** in your first semester.
- ❑ **UQ has zero tolerance for academic misconduct (e.g., plagiarism)**
