

Postgraduate Research in Engineering Student Society

What we do?

PRESS is an organization providing postgraduate engineering students opportunities to network and participate in social and sporting events. Every month we host morning teas and happy hours. We also get our members involved in days out cycling, football games, local charities runs and swims as well as annual trips outside of Brisbane (very popular, see below!).

Who Can Join?

Any postgraduate student perusing a Masters or PhD in an engineering field is welcome to join.

Is it worth it?

Without a doubt!! For only **\$10** you get all these free and discounted events. This includes completely free morning teas, free food and drinks (alcoholic and non-alcoholic) at happy hours, and discounted entry fees and transport to events.

To join, simply request an online registration form link by emailing:

press.uq@gmail.com

and follow the instructions to pay membership fees.

Morton Island Trip 2013
